not worth it. love this one 2. Trendy breaks tradition with this most recent content pack (skin and map, not character), in that they are charging for it from Day 1, much to the chagrin of the community, myself included. I begrudgingly bought it, forgetting about two things: first, the skin is NOT automatically granted with purchase, it needs to be unlocked by completing the Cliffs level on Medium or greater; second, because of the unlockable nature of the skin, as with past skin/map content packs, you do not need to purchase to partake. Just join a Cliffs game and voila, the Bounty Hunter EV skin is yours. And complete Wave 14 of Survival to garner the new awesome Djinnlet pet. Now, from the first picture above, you may think that

this new skin makes the EV one badass DUDE, but think again. Trendy is in fact paying homage to one of the greatest video game characters (& bounty hunters) of all time, Samus Aran of the Metroid series. The way the char stands and the permanent "braid" on the back are further proof.. It's the new Glitterhelm.. One of the weaker maps added via DLC, but totally worth the money, Trendy just never let us , Dungeon Defenders fans down :) 7/10
