Disclaimer The text above is not a recommendation to remove CyberLink Power Media Player 12 by CyberLink Corp.. Is not a good application I really don't get this When I originally bought this Laptop lat year, everything worked okay, so why has it stopped working.. With windows 8 1; 64 bit operating system I clicked on the link you supplied for cyberlink spec for power and it took me to a site where I have to purchase something (Power DVD 15).
